DAYSTAR UNIVERSITY

Excellence • Transformation • Servant-leadership

INVITATION TO TENDER: REF BID NO: DU/BID/01/2026-2027

TENDER FOR THE PROPOSED CONSTRUCTION OF HUMAN ANATOMY LABORATORIES, CLASSROOMS AND FUNERAL HOME AT DAYSTAR UNIVERSITY, ATHI RIVER CAMPUS

Daystar University is a Christian private institution of higher learning registered and accredited under the Universities Act, No. 42 of 2012, Laws of Kenya. The University aims to be a distinguished Christ-centred university of choice, transforming the world through world-class, value-based education.

As part of its current strategic growth and academic diversification agenda, Daystar University is undertaking a major institutional initiative to establish a **College of Health Sciences**, envisioned to become a significant centre for health-professions, education, training, research, innovation and service. The proposed College will progressively broaden the University's health-sciences portfolio, including the development of **Medicine and other allied health programmes**, subject to the requisite regulatory approvals.

The proposed **Human Anatomy Laboratories, Classrooms and Funeral Home** constitute critical enabling infrastructure for this strategic initiative. The facilities are intended to support the teaching and practical study of human anatomy and related biomedical sciences and to provide an appropriate foundation for the University›s expanding academic programmes in health-sciences.

In preparation for the intended commencement of the next phase of health-sciences programmes **early in 2027**, the University is accelerating the development of the specialized physical infrastructure required to support high-quality teaching, practical training and regulatory compliance.

The successful bidder will therefore be expected to demonstrate not only the requisite technical and financial capacity, but also the ability to mobilize promptly, maintain a rigorous construction programme and deliver the works within the University's required implementation timelines without compromising quality, safety or applicable statutory and regulatory standards. This tender forms part of a **strategic and time-sensitive infrastructure development programme supporting Daystar University's planned College of Health Sciences and the progressive development of Medicine and allied health programmes**.

The University therefore invites **sealed bids from suitably qualified, experienced and eligible contractors holding NCA 1 or NCA 2 registration in Building Works** to submit their respective bids for consideration.

Eligible candidates will access the tender documents, blank Bill of Quantities (BQ) and architectural drawings from the University website **https://daystar.ac.ke/tenders.html**

Completed bid documents are to be enclosed in plain sealed envelopes, clearly marked with the Bid number and name and deposited in the Tender Box provided at **Daystar University, Main Campus Athi River,** to be received on/or before 14th September 2026 at 2.00PM. Bidders are required to submit two copies of the Bid, clearly marked "**ORIGINAL BID-hardcopy"** and **"SOFT COPY OF ORIGINAL BID" - submitted in labelled flash disk.** Bids coming after 2.00PM shall not be accepted.

Bids will be opened immediately thereafter in the presence of bidders or their representatives who choose to attend at Daystar University, **Main Campus Athi River**.

All bid submissions shall be addressed to: **Deputy Vice Chancellor, Finance, Administration & Planning, P.O. Box 1-00204, Athi River, Kenya.**
